HUNGARY

Dear Reader,

Hungarians are well-known for being a passionate people. They are quick to act, and take a stand for their creativity, opinion and faith. Our unique outlook on life and our vigour are apparent in our every thought and they also permeate our culinary culture.

No wonder, then, that since ancient times we have loved distinctive, pronounced flavours, hot spices and substantial, traditional dishes. Our agriculture, our GMO-free status - guaranteed by the constitution - and the distinct uniqueness of our cuisine is world-famous.

With our expertise and several decades of experience, our mission at AMC is to raise awareness, to encourage the enjoyment of and to propagate healthy, tasty, high-quality Hungarian products that are manufactured by eco-conscious process and are made respecting the ways our ancestors bequeathed upon us, by passing on our knowledge from one generation to the next, and by encouraging new and innovative technologies.

As a result of our unequalled geographical and natural endowments, our exceptional eminence in producing food products, and thanks to our high level of food safety compared to other EU members we are able to offer food products with a high added value.

Come and visit our booth, explore the high-quality Hungarian products of our exhibitors and taste the delightful flavors of our dishes and drinks so you can choose your favorite ones that are worthy enough of sharing with your loved ones.

Fino Group is a vertically integrated dairy processor run by the Egyed family with roots in the 19th century. Our highly experienced staff of 500 people goes the extra mile to nurture our family traditions while focusing on innovations: we cultivate crop on pristine fields full of herbs to ensure the wellbeing of our 5600 cows, turn daily 150 000 liters of naturally white farm milk into countryside flavour products (such as semi-hard cheeses, grill cheese, labneh, ayran etc.) in our state-of-the-art facility, and produce even vegan dairy alternatives (vegan cottage, cooking cream, cheeses, desserts) for the sake of innovation and sustainability.

Our company is mainly exporting original Hungarian canned fruits, vegetables and canned meat worldwide. All our products are GMO-free. Beside trading, we focus on different areas:

- Sales and distribution of sweet corn, green peas, sour cherry, plum, etc. and canned meat
- Supply of raw materials to producers (tomato paste, fruit puree concentrates)
- Own repack operation, and co-packing

HUNGARIAN FOOD

BUSINESS PROGRAM

*Online, real-time food
catalogue and event
management software*

– Find your Hungarian export partner easily –

As part of the 2021 business development activity of Agricultural Marketing Centre, we intended to create a real-time, online interface with up-to-date data, which categorizes Hungarian food manufacturers and their products, thus making them transparent and easily accessible for those interested in importing. The system has been developed to become a modern, easy-to-use platform in line with today's IT trends, which provides professional help equally for the Hungarian Food Industry players as well as for foreign buyers.

ABOUT THE SOFTWARE

- Online, real-time database
- Contains the profiles of the exporting Hungarian food manufacturers
- Segmented product portfolio that can be filtered according to several aspects
- Two-stage registration
- Once registered, the software is worldwide available with English language user interface
- Direct internal mailing system

WHAT WE OFFER

- An online, business facilitator food industry software
- Free registration / usage
- Knowledge base for exporting, professional reports
- Simplified registration and matchmaking possibility for events organized by the Agricultural Marketing Centre
- Quick download of the country catalogue in pdf format
- Online, printable database of exportable Hungarian food manufacturing companies and their products
- Most relevant export and delivery data

Register your company and products at
www.hungarianfoodexport.com
